AWARD

Fyffe Construction Company is honored for excellence within the EarthCraft program

ATLANTA, GA – October 30, 2014 – Fyffe Construction Company (FCC) was named **EarthCraft 2014 Multifamily Project of the Year** by Southface and the Greater Atlanta Home Builders Association (GAHBA) at the October 29 EarthCraft Celebration of Excellence. EarthCraft, the Southeast's premier green building certification program, promotes energy efficient, healthy, comfortable and durable new construction and renovation.

Fyffe Construction Company was honored for leadership and excellence in green building design and construction for The Forest at York multifamily development in Newnan, GA. Sustainable building methods and materials were incorporated into the 3- story 72-Unit property which reduces costs over time for the residents and owner. The residents are provided with a healthier and comfortable living environment, in addition to lower monthly expenses. The owner benefits through reduced operating expenses and long term operational costs. *"FCC is very proud to be recognized by EarthCraft for our commitment to green housing,"* said Vice-President Coy Murray. *"Their awards reflect our sincere commitment in helping improve families' lives as we continue to do a small part in helping the world's environment for future generations."*

The award was presented by David Ellis, Executive Vice President of the GAHBA, and Scott Lee, Director of Residential Green Building Services at Southface, in the presence of over 100 industry leaders at the Southface Eco Office in downtown Atlanta. *"We are proud of the outstanding work that Fyffe Construction Company does to advance green building in the Southeast. We celebrate their vision and their leadership,"* said Scott Lee.

This year was not the first time one of FCC's projects has won an EarthCraft award. Fyffe Construction Company was named 2011 Project Team of the Year with the completion of 40 single-family homes at Crest at Edinburg in August, GA, which was awarded EarthCraft House Gold Certification.

About Fyffe Construction:

Fyffe Construction Company is a full service general contractor specializing in affordable multifamily residential, single-family homes, light commercial, medical and hospitality properties. Please visit www.fyffeconstruction.com for more information.

About EarthCraft:

EarthCraft is a green building certification program designed to address climate, energy and water issues unique to the southeastern United States. The program serves as a blueprint for energy and resource efficient single-family homes, multifamily structures, renovation projects, community developments, light commercial buildings and sustainable preservation projects. Please visit www.earthcraft.org for more information.
